

- 1
- =====
- 2
- INTERNSHIP MANAGEMENT PLATFORM – PRESENTATION DEMO SHEET
- 3
- Domain: IT / Software
- 4
- Keep this open during the defense. Copy-paste from it as you demo.
- 5
- =====
- 6
-
- 7
-
- 8
- IMPORTANT REMINDERS BEFORE YOU START
- 9
-
- 10
- Backend running, database seeded, all 3 accounts ready to log in.
- 11
- DATE RULE: start dates must be TODAY or LATER; due/end dates after the
- 12
- start. So before the demo, replace every [DATE: ...] placeholder below
- 13
- with real dates relative to your presentation day.
- 14
- Example mapping (adjust to your actual demo date):
- 15
- [START] = a few days after today
- 16
- [TASK DUE 1] = ~1 week after the start
- 17
- [TASK DUE 2] = ~2 weeks after the start
- 18
- [END] = ~12 weeks after the start
- 19
- Have one browser window per role (or tabs) so role-switching is instant.
- 20
- Have the mobile app already running as a backup.
- 21
- 22

2. INTERNSHIP OFFERS (posted by SECEL – all IT)

66 

=====

67 

68 

OFFER 1 (use this one for the main demo flow)

69 

Title: Mobile Developer Intern (Flutter)

70 

Location: Douala (Hybrid)

71 

Duration: 12 weeks

72 

Start date: [START]

73 

Positions: 1

74 

Skills: Flutter, Dart, REST APIs, Git

75 

Description:

76 

SECEL is looking for a motivated mobile developer intern to help build

77 

cross-platform applications with Flutter. You will work alongside our

78 

engineering team to develop new features, consume REST APIs, and

79 

contribute to our internship management product. Ideal for a student

80 

passionate about mobile development and clean code.

81 

82 

OFFER 2

83 

Title: Frontend Developer Intern (React / Next.js)

84 

Location: Douala (On-site)

85 

Duration: 16 weeks

86 

Start date: [START]

87 

Positions: 2

88 

Skills: JavaScript, React, Next.js, HTML/CSS, Git

89 

Description:

90 

Join SECEL's web team to build responsive, modern user interfaces with

91 

React and Next.js. You'll turn designs into reusable components, connect

92 

them to our backend API, and learn professional frontend workflows.

93 

94 

OFFER 3

95 

Title: Backend Developer Intern (Python / Django)

96 

Location: Remote

97 

Duration: 12 weeks

98 

Start date: [START]

99 

Positions: 1

100 

Skills: Python, Django, REST APIs, SQL, Git

101 

Description:

102 

SECEL seeks a backend intern to help design and build REST APIs with

103 

Django and Django REST Framework. You'll write models, endpoints, and

104 

tests, and learn how production backends are structured.

105 

106 

OFFER 4 (leave as DRAFT – to show offer statuses)

107 

Title: UX/UI Design Intern

108 

Location: Douala

109 

Duration: 8 weeks

110 

Skills: Figma, UI design, Prototyping

111 

Description:

112 

Support SECEL's product team in designing clean, user-friendly

113 

interfaces for web and mobile applications.

114 

115 

=====

116 

3. STUDENT APPLICATION (ALHASSAN applies to OFFER 1)

117 

=====

118 

119 

Apply to: Mobile Developer Intern (Flutter)

120 

CV: have a sample PDF ready to attach (e.g. cv_demo.pdf)

121 

Cover message:

122 

"Dear SECEL team, I am a final-year Software Engineering student with

123 

hands-on experience building cross-platform apps in Flutter. I am very

124 

interested in your Mobile Developer Intern position and would be glad to

125 

contribute to your projects while learning from your team. Thank you for

126 

considering my application."

127 

128 

=====

129 

4. TASKS (assigned on the active internship – by SECEL or BORIS DJOP)

130 

=====

131 

132 

TASK 1

133 

Title: Set up the development environment

134 

Due date: [TASK DUE 1]

135 

Description:

136 

Install Flutter, Android Studio, and the project repository. Run the

137 

app successfully on an emulator and confirm it connects to the API.

138 

139 

TASK 2

140 

Title: Build the login screen UI

141 

Due date: [TASK DUE 2]

142 

Description:

143 

Implement the login screen following the design system: email and

144 

password fields, validation, and the primary button. No backend wiring

145 

yet – UI only.

146 

147 

TASK 3

148 

Title: Integrate the authentication API

149 

Due date: [TASK DUE 2 + a few days]

150 

Description:

151 

Connect the login screen to the REST API, store the JWT securely, and

152

handle invalid-credentials errors gracefully.

153

154

TASK 4

155

Title: Write unit tests for the auth module

156

Due date: [END - 1 week]

157

Description:

158

Add tests covering successful login, failed login, and token storage.

159

160

Student submission note (for TASK 1, when you demo "submit"):

161

"Environment is set up and the app runs on the emulator and connects to

162

the API successfully. Screenshot attached."

163

164

165

5. REPORTS (submitted by ALHASSAN)

166

167

168

REPORT – Week 1

169

Title: Week 1 Progress Report

170

Period: Week 1

171

Content:

172

"During my first week at SECEL I set up my development environment,

173  got familiar with the codebase and the team's Git workflow, and started

174  on the login screen. I learned how the project is structured into

175  features and how the app talks to the REST API. Next week I plan to

176  finish the login UI and begin the API integration."

177 

178  Teacher / company feedback (when you demo "validate" or "request changes"):

179  "Good start, Alhassan. Clear summary. For next week, add a short note on

180  any blockers you faced. Validated."

181 

182 

=====

183  6. MESSAGING (thread on the active internship – for the chat demo)

184 

=====

185  Send these in order, switching accounts, to show the WhatsApp-style chat.

186 

187  [SECEL] "Hi Alhassan, welcome aboard! Your first task is on the

188  dashboard. Let us know if anything is unclear."

189  [ALHASSAN] "Thank you! I've already started setting up the

190  environment."

191  [BORIS DJOP] "Great. Remember your first weekly report is due Friday."

192  [ALHASSAN] "Noted, I'll have it ready on time."

193  [SECEL] "Perfect. Reach out anytime if you're blocked."

194 

195

196

7. EVALUATIONS (at the end – company + teacher, scores 1–5)

197

198

199

COMPANY EVALUATION (by SECEL)

200

Technical skills: 5

201

Autonomy: 4

202

Communication: 5

203

Professionalism: 5

204

Overall: 5

205

Comment:

206

"Alhassan was a dependable and fast-learning intern. He delivered the

207

mobile features on time and communicated clearly with the team. We would

208

gladly host him again."

209

210

TEACHER EVALUATION (by BORIS DJOP)

211

Technical skills: 4

212

Autonomy: 4

213

Communication: 5

214

Professionalism: 5

215

Overall: 4

216 

Comment:

217 

"Strong performance and good engagement throughout the internship.

218 

Reports were submitted on time and showed clear progress. Recommended."

219 

220 

STUDENT RATING (optional – by ALHASSAN)

221 

Supervision: 5

222 

Learning: 5

223 

Environment: 4

224 

Comment:

225 

"A great learning experience. The team was supportive and I improved my

226 

Flutter and API skills significantly."

227 

228 

-> After this, show the EVALUATION FORM PDF and the CERTIFICATE PDF

229 

download (certificate only appears once the internship is COMPLETED).

230 

231 

=====

232 

8. DEMO CLICK-PATH (the order to walk through on stage)

233 

=====

234 

1. Log in as SECEL -> post OFFER 1 -> publish it.

235 

2. Log in as ALHASSAN -> find the offer (show search/filter) -> open it

236 

-> Apply (attach CV + cover message).

237 

3. Back as SECEL -> see the application -> Accept

238 

(point out: an internship agreement was created automatically).

239 

4. Log in as BORIS DJOP -> see the pending agreement -> Validate

240 

(point out: internship is now ACTIVE; notifications fired).

241 

5. Open the internship dashboard -> as SECEL assign TASK 1

242 

-> as ALHASSAN submit TASK 1 (with note/file)

243 

-> as BORIS DJOP validate it (show progress update).

244 

6. As ALHASSAN submit the Week 1 REPORT -> validate it with feedback.

245 

7. Open MESSAGES -> send the scripted chat -> show bubbles align by who

246 

is logged in (own messages on the right).

247 

8. Complete the internship -> SECEL + BORIS DJOP submit EVALUATIONS

248 

-> ALHASSAN views the summary, submits the optional rating,

249 

and DOWNLOADS the evaluation form + certificate PDFs.

250 

9. Toggle DARK MODE; show the same flow on the MOBILE app.

251 

10. (Optional) Show the diagrams / Django admin for oversight.

252 

253 

254 

9. SAFETY NETS

255 

256 

- If a live step fails: "Let me show that on the mobile version" and

257 

continue there.

258 

- Keep a screen-recording of a full successful run as a last resort.

259 

- Have your UML diagrams ready for the architecture questions.

260 

=====

261
